

VMware Certified Professional

Data Center Virtualization(VCP-DCV)

The VCP-DCV certification is an industry-recognized credential that demonstrates your data center virtualization expertise, and confirms that you have the skills and ability to successfully install, deploy, scale and manage VMware vSphere environments.

All VMware certification exams require prior VMware authorization which can be gained at this link. www.vmware.com/certification. After that you will be ready to schedule your test at <http://www.pearsonvue.com/vmware/>. If this is your first time taking a VMware certification exam, please create a new web account using the Candidate ID provided in order to schedule the exam that you have been authorized to take. This is required even if you have taken other certification exams at Pearson VUE and have an existing account

Target Group

- 1- Data Center Virtualization expertise.
- 2- System Administrator
- 3- Support technicians.
